To Whom It May Concern:

United States Department of Veterans Affairs Southern Arizona VA Health Care System (SAVAHCS) has provided this *Letter of Reference* on behalf of Copperstate Fire Protection who was selected under RFQ #VA678-C20113 to provide Fire Alarm Inspection and Testing services at the SAVAHCS campus in Tucson, Arizona.

This RFQ was a significant requirement for SAVAHCS Fire Life Safety Operations as we require a quality service organization listed under GSA Schedule 84 and had the required technical knowledge and Notifier support of the fire alarm systems and ONYXWorks Network installed in our facilities.

Within the RFQ, Copperstate Fire Protection provided SAVAHCS with the continued use of Building Reports which is an online recordkeeping and reporting system utilizing bar code-based software to provide the SAVAHCS Fire Life Safety Operations with extensive system information, inventory and inspection reports which exceed industry standards and annual compliance requirements with The Joint Commission review.

Please do not hesitate to contact me directly for any additional information you may require about Copperstate Fire Protection. The phone number is (520) 629-1840.

Sincerely,

for Martin H. Sjursen
Chief, Facilities Management
