To whom it may concern

This letter is regarding the services and assistance that Mountain Alarm has provided for the Colorado State University Campus. In the last year Mountain Alarm was granted a contract for providing assistance with the CSU Notifier Network upgrade and future planning. CSU has one of the largest, if not the largest Notifier Networks in the United States. Mountain Alarm has been very helpful in the assistance and knowledge of Networking. They have also provided great factory assistance and prompt business. This company has also been granted a Sole Source contract for Network equipment and assistance. We look forward to future business and are very fortunate with the customer assistance that we have been provided. For any questions and or concern, feel free to contact me at 970-567-1226.
